## Unisys Named an Innovator in Avasant's State and Local Government Digital Services 2025 RadarView™

*Global technology company advances in ranking, recognized for secure data-driven  
transformation capabilities in the public sector*

**BLUE BELL, Pa., Sept. 3, 2025** – [Unisys](#) (NYSE: UIS) has been named an Innovator in Avasant's [State and Local Government Digital Services 2025 RadarView™](#). The annual report, published by leading management consulting firm [Avasant](#), offers a comprehensive assessment of service providers supporting digital transformation across public sector agencies. Providers are categorized into four segments – Leaders, Innovators, Disruptors and Challengers – based on their capabilities and market impact.

Unisys earned its Innovator designation for its strong capabilities and differentiated approach in enabling secure data-driven transformation for state and local governments.

Key differentiators and leading capabilities provided by Unisys that are cited in the RadarView™ include:

- **Focused Approach to Digital Transformation:** Unisys leverages analytics, citizen engagement and cybersecurity to facilitate public sector digital transformation through modern cybersecurity operations, predictive analytics, cloud-native automation and trusted delivery.

- **Advanced Technology Expertise:** The company brings innovative capabilities in intelligent automation, modern applications, AI-driven analytics and secure cloud management. Expertise in application modernization, AIOps and ethical AI ensures agility and long-term value for state and local governments navigating modernization challenges through legacy systems or end-of-life devices.
- **Partnership Ecosystem:** Avasant recognized the company for cultivating a strong network of public sector-focused partnerships and expanding contract vehicles, either through vendor relationships or increasing scopes, to simplify procurement for government clients.
- **Operational Excellence:** The report commended Unisys for helping agencies maximize technology investments while maintaining security standards through its [operational efficiency](#), cost control and security compliance.

“Unisys has a long-standing history of supporting state and local governments, and this recognition underscores our commitment to helping public sector agencies fulfill their missions through innovative approaches in an environment demanding greater connectivity and digital experiences,” said Manju Naglapur, senior vice president and general manager, Cloud, Applications & Infrastructure solutions at Unisys. “The public sector is currently navigating rapid business changes and budgetary uncertainties, which is where we come in to deliver analytics, citizen engagement and cybersecurity – all with efficiency in mind.”

This marks the second consecutive year Unisys has been featured in Avasant’s report, advancing from the previous Challenger status in 2024. The Innovator designation is reserved for companies that are redefining industry standards through bold, forward-thinking strategies, often reshaping how services are delivered and consumed.

“Unisys leverages over 150 years of its public sector experience to deliver AI-driven automation, secure cloud solutions and application modernization,” said Henry Guapo, managing partner at Avasant. “The company’s commitment to enhancing citizen experience through its portfolio of proprietary solutions and partner initiatives by leveraging emerging technologies in the state and local government space has secured its position as an Innovator in Avasant’s State and Local Government Digital Services 2025 RadarView.”
